Stephen

Here is the package for DAIMLER I believe we still need a letter from you at the EPA for final approval to build these gliders. Please advise if you need anything else as this has caused a 3 month delay already.

Thanks Randy

Randy Varner

Randy,

Has Westlie Truck Center of Dickson sold any of the gliders that they have assembled to another company or person? To qualify for the small business to glider exemption the regulations (see 40 CFR 86.1037.15(t)) require that that the small business had to have sold at least one glider to an outside party. The letter does not indicate if any gliders have been sold. You should review your records to see if any gliders were sold in 2014. Please see the excerpt from the regulation below:

§1037.150 Interim provisions.

(t) Glider kits and glider vehicles.

(1)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Please let me know if you have any questions.

Thank you,

Stephen Healy
